EXPLANATORY NOTES

- Subjects must be approved in the order they appear in the curriculum, unless the director of the academic unit, the professional advisor, or the mentor teacher authorizes another sequence.
- The normal term for regular students to complete their studies is four (4) years in college programs.
- Students who interrupt their studies for two semesters or more will be governed by the curriculum that is in effect at the time of re-entry.
- The College Board achievement test score will determine at what level of Spanish, English or mathematics students should be placed initially. According to said score, it will be determined if the student is to take: (1) the basic skills course, (2) the course indicated in his study plan, or (3) higher level courses than the one established by the curriculum. You can see the Criteria table for initial location on the following web page <http://www.sagrado.edu/publicaciones/Catalogo>.
- Students with deficiencies in English, a score lower than 475 on the College Board, must take the basic skills course, ING 031. This course must be passed with a proficiency level of **80%** or more during the first year of studies in the USC After passing the basic skills course, students will take the courses that are required in this subject in their curriculum.
- Students will be required a minimum grade of **C (70%)** to pass any course in English, Spanish (language or literature), and / or foreign languages, even when taken as a free elective.
- Transfer students will not have to take the FEP 100 course; they must substitute it with free electives.

USC reserves the right to make changes to this Curriculum.
